POLICIES**
For Business Men.

The
Best
Co'y
for
YOU.

Fully Paid Up Capital of \$300,000.00

The Capital of the SCRANTON LIFE INSURANCE COMPANY will be increased to One Million Dollars, and policy holders may also become stockholders, if they see fit, under conditions that practically entail no outlay on their part. A safer, sounder or better form of investment is impossible, and the policies issued by this company are broader and more liberal in their terms than any others now on the market.

Of Course, you Prefer a Home Company

Have YOU Got a Policy In Our Company Yet ?

IF NOT, THERE ARE A THOUSAND GOOD REASONS WHY YOU SHOULD! New Companies, established on a firm, legal reserve, "OLD LINE" basis, such as the Scranton Life Insurance Company, are paying much larger dividends to policy holders, than older companies, because their death losses are not nearly as great, and of course the policy holder benefits thereby. As to the safety of the new companies, the law takes care of that absolutely, while the names of the Board of Directors, most of whom are known to you, afford an additional guarantee that the interests of the insured will be well looked after. Those that hesitated in the beginning, need hesitate no longer. Everything promised has been accomplished, and Scranton's only Life Insurance Company has been pronounced an unqualified success.

IT IS A SUCCESS AND THE PEOPLE Made it So !
